

# Point of Care Tools

**DynaMed** is updated daily and provides current, evidence-based, peer reviewed information to support decision making at the point of care.

It can be accessed from:

- the K-Net Home page by selecting 'Library Services' (on the top bar) and then clicking the 'DynaMed' button in the right-hand column.
- home with a KGH NHS OpenAthens login. It is also available as a mobile app.

**BMJ Best Practice** provides high quality clinical decision support with a good breadth of coverage and evidence-based methodology. It links to BNF and BNFC. It is available via NHS Evidence, or the Library page on K-Net. OpenAthens access. If you create a personal account you can then access BMJ Best Practice outside the hospital, download the app and track activity to record CME/CPD points.
