

Library Training

Do you ... want to look beyond your reading list?
have a patient with an unusual condition?
need the latest evidence to support a guideline/policy?

Are you ... embarking on a literature review?
not sure how to judge the validity of a paper?
uncomfortable interpreting statistics?

Our training sessions delivered via Teams can help you identify articles and evidence quickly, and build your confidence in assessing the worth of a study.

Literature Search: - how to construct and apply a search strategy to identify literature on a topic using the interface provided through NICE Evidence to the major healthcare databases.

Critical Appraisal: a series of bite-sized sessions covering various aspects of assessing a paper.

Topic	Date	Time
