

**Overwhelmed with information?**

**Unsure of how to keep up-to-date?**

**Our KnowledgeShare notifications are personalised and targeted to you.**

**Let us help you!**

<p><b>What is it?</b></p>	<p>KnowledgeShare is our personalised targeted current awareness service. The focus is placed on evidence that will change practice, and the most recent publications on quality, safety, education and patient experience. We aim to find you what you need to know and no more.</p>
<p><b>Why use it?</b></p>	<p>For the latest high-level evidence in your field/interest.</p>
<p><b>How does it work?</b></p>	<ul style="list-style-type: none"> <li>• It is an online current awareness system that is NHS OpenAthens password protected.</li> <li>• A profile matching system is used (settings set on your profile will be matched with settings on documents).</li> <li>• Your KnowledgeShare profile is created to be as broad or as specific as you require, e.g., you could receive everything published on 'obstetrics' or limit to receive items related to 'gestational diabetes'.</li> <li>• The documents (guidelines, policy documents, summarised evidence, <i>NOT primary research articles</i>) are added to the system using the same categories, keywords etc.</li> <li>• The system then matches your profile with the document files and emails the results to you in fortnightly notifications.</li> </ul>
<p><b>How do you receive notifications?</b></p>	<ul style="list-style-type: none"> <li>• Complete and sign one of our KnowledgeShare profile forms.</li> <li>• Forms are available from the KGH Library Enquiry Desk or online at: - <a href="https://www.surveymonkey.co.uk/r/9KL7BLZ">https://www.surveymonkey.co.uk/r/9KL7BLZ</a></li> </ul>
