SPSS

We host the SPSS statistics software package on behalf of the Research and Development Department.

If you are carrying out audit or other research on behalf of the Trust and would benefit from having access to this package please contact the library for further details.

For those of you completely new to SPSS Margaret Theaker can offer a basic tutorial to get you started.

What is SPSS? - SPSS is the acronym of Statistical Package for the Social Science. SPSS is one of the most popular statistical packages which can perform highly complex data manipulation and analysis with simple instructions.

eLearning for Health

Now available via your NHS OpenAthens login – please see attached for a list of available programmes. Please note that these do not replace any Trust training programmes.

eBooks

For information on ebooks that we have purchased and added to our catalogue and titles that are available to request loan access to please view our webpage - <http://kghlibrary.koha-ptfs.co.uk/find-information/find-a-book/ebooks/>
